

SOCIAL-FEED CASCADE SLOT · GAME SHEET

The feed keeps scrolling until a scroll pays nothing.

2:47 a.m., a dark bedroom, one more scroll. The reels are a neon social feed, a satire of the attention economy. Each reel shows two to seven posts per spin, for up to 117,649 ways. Winning posts scroll away, new ones push in, and every paying scroll raises the engagement multiplier. The rose is the VIRAL symbol, and it opens a bonus that never counts spins.
